Topic: Help with a Federal Agency

Message:

Dear Vice President Biden,

Firstly congratulations on your re-election it was my privilege to cast my vote for Barrack Obama and you as I did in 2008.

I am writing to you as I am deeply concerned with the recent decision by the U.S. Forest Service announced that it will allow Denison Mines Corp. to begin excavating the "Canyon Mine" this fall without first updating the 26-year-old environmental impact statement for the uranium mine, located due south of Grand Canyon National Park on the Kaibab National Forest.

The mine directly threatens the limited water supply of the Havuspai indian tribe and I implore you to please look into this situation and put in place an immediate halt to the mining in order that proper procedures are followed to protect the vital water supply to the Havuspai tribe of the Grand Canyon and to one of our greatest treasures the Grand Canyon itself.

Thank you in advance for your assistance in this matter.

Sincerely,
Sherry Louise Stewart
